Eastern Idaho COVID-19 Economic Report | July 13, 2020

About the Report

The RBDC is tracking the economic impact of the COVID-19 outbreak on eastern Idaho. The report is compiled by RBDC student research teams and will be updated weekly. We hope you find the report helpful to you. We appreciate the organizations that have contributed funds to make this report available. Please contact Will Jenson (w.jenson@rbdcenter.org) if you would like to participate in our weekly industry surveys or would like to contribute to our report in some other way.

-Thank you

New This Week

- Statewide Continued Claims continued to dropped this week
- Initial Claims went up in Jefferson County
- Bonneville County had the most job openings in Professional Services
- Custer Counties Weekly Job Opening Percentage went up this week

Definitions

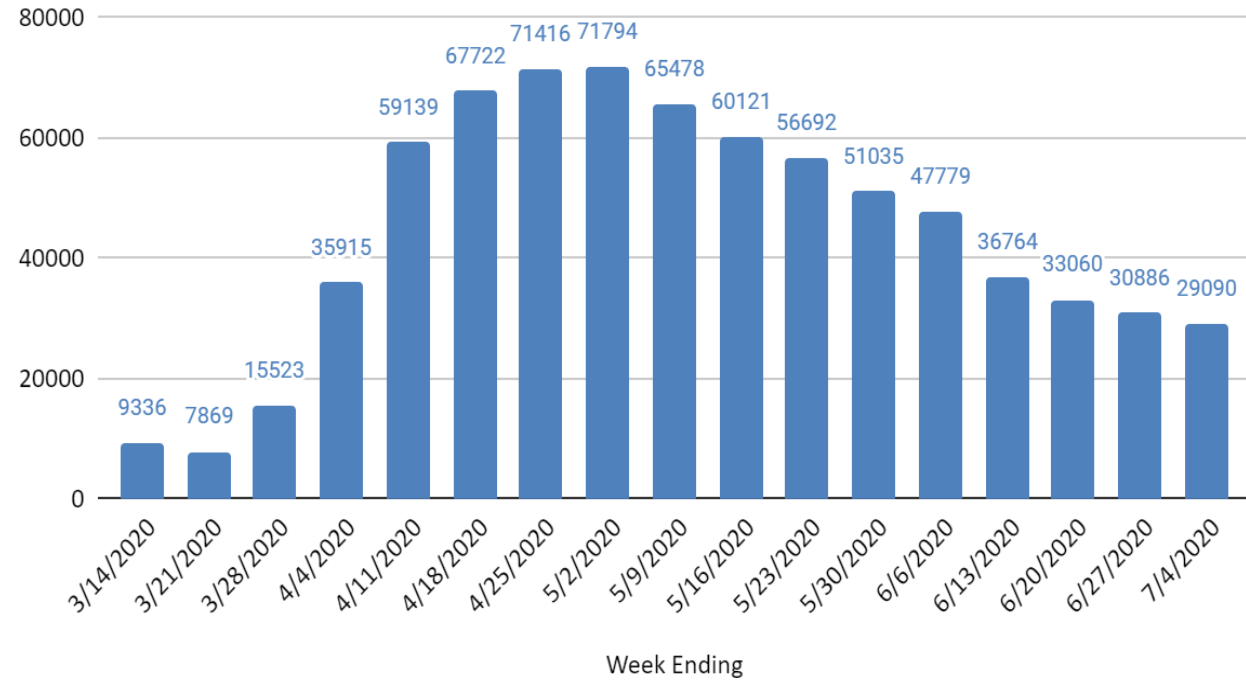

An **initial claim** is a claim filed by an unemployed individual after a separation from an employer. The claimant requests a determination of basic eligibility for the UI program. When an initial claim is filed with a state, certain programmatic activities take place and these result in activity counts including the count of initial claims. The count of initial claims for unemployment insurance is a leading economic indicator because it is an indication of emerging labor market conditions in the country. However, these are weekly administrative data which are difficult to seasonally adjust, making the series subject to some volatility.
